Hi Erin,

Its in the Huntington Room, high noon.

Here's Doug Obegi's email with an agenda.

Hi folks,

Attached is a draft agenda for tomorrow's meeting regarding BDCP operations. My goals for the meeting are:

- (1) Everyone to have a better understanding of the operational rules that the NGOs have been working on (Scenario 7a), the operational rules for BDCP Alternative 8 (enhanced outflow) and the modeling results of each;
- (2) Brainstorm ways to address issues regarding operations (particularly winter/spring outflow, upstream reservoir storage, north delta bypass flow rules, and south delta operational rules); and
- (3) Help the NGOs refine Scenario 7a and/or develop alternative operational parameters for further refinement that address the Red Flag issues and other concerns.

I hope that people will ask lots of questions, and that we can have an informal brainstorming session that produces some good refinements to operations. If folks have other suggestions for the agenda, we can talk about that tomorrow when we first begin.

As a reminder the meeting will convene at 12:00 at 650 Capitol Mall, in the Huntington Room on the first floor. Everyone on this email should be on the security list so you can come in the front door and bring computers and cell phones that have a camera. Unfortunately we can't arrange lunch tomorrow, so please feel free to bring a lunch to eat during the meeting or eat beforehand.

I really appreciate everyone taking the time to work with us on these operational parameters, and look forward to meeting with everyone tomorrow.

Thanks,

Doug

Doug Obegi
